SKILLS

Architecture & Engineering

System Design, Multi Tenant Architecture, Event Driven Architecture, Domain Driven Design, Clean Architecture, API Design, Scalability & Reliability

AI Engineering

Agentic Workflows, Multi-Agent Orchestration, LLM API Integration, Anthropic Claude, Google Gemini

Programming Languages

TypeScript, Kotlin, Java, Dart, Swift

Backend Engineering

NestJS, Spring Boot, TypeORM, Hibernate, PostgreSQL, Redis, Debezium, Elasticsearch, REST APIs

Mobile & Real-Time

Communications

Flutter, Android SDK, iOS SDK, Firebase Cloud Messaging, APNs, Couchbase Lite, SIP, VoIP, Linphone

Cloud & DevOps

AWS, Lambda, SQS, EventBridge, RDS, S3, SES, CloudFront, GitHub Actions

WORK EXPERIENCE

Particle41

02/2024 – present

Staff Software Engineer

Remote

- Led backend architecture and delivery for two multi-tenant SaaS products directing a team of up to 7 and setting clean architecture and test-coverage standards
- Designed event-driven services on AWS (SQS/Lambda) for chat, email, and push notifications, and owned PostgreSQL schema, migrations, and financial features including subscription billing, credit balances, and A/R aging.
- Ran an internal initiative building AI-powered developer tooling: an "Agentic Software Factory" that generates applications directly from PRDs.

Soomuch.ai

02/2023 – 02/2024

Freelance Engineer

Remote

- Delivered the core database schema, REST API layer, and Flutter mobile application for a multi-module SaaS platform serving educational institutions.

YUI Designs

03/2022 – 02/2023

Tech Lead

Remote

- Led Android and iOS development of the MyCitröen connected-vehicle app, in collaboration with Tata Elxsi.
- Re-architected the iOS network layer to add refresh-token authentication.
- Authored security, requirements, and SDLC documentation to pass the Thales security audit.

Netrix Worldwide

07/2017 – 02/2022

Tech Lead

Pune

- Built a cross-platform SIP/VoIP client for Android and iOS using Linphone, Couchbase Lite, and REST APIs.
- Developed a Spring Boot microservice with Apache Kafka to process real-time call data and audio recordings.
- Built a Java/Spring Boot reporting service backed by Elasticsearch.

Ecosmob Technologies

04/2013 – 07/2017

Tech Lead

Ahmedabad

- Helped establish the company's first mobile application development practice across Android and iOS.
- Led an 8-member team delivering concurrent client projects across telecom, education, sports, and productivity domains.
- Owned requirement analysis, project estimation, and technical coordination with cross-functional teams across multiple concurrent projects.

EDUCATION & CERTIFICATIONS

Android Developer Nanodegree
Udacity
04/2016 – 08/2016
Remote

- Awarded a Tata Trusts and Google India scholarship for the Udacity Android Developer Nanodegree.
- Selected among the top 50 participants for the Android Career Summit at Google, Bangalore (Sep 2016).

M.E. in IT
*L. D. College of Engineering
(GTU)*
2013 – 2015
Ahmedabad, Gujarat

B.E. in IT
*L. D. College of Engineering
(GTU)*
2009 – 2013
Ahmedabad, Gujarat

- Cleared the Graduate Aptitude Test in Engineering exam with 98% percentile in 2013

PROJECTS

HOA Management Platform [🔗](#) 08/2025 – Present
A multi-tenant community and homeowner association management platform.
NestJS, TypeScript, PostgreSQL, TypeORM, AWS (SQS/Lambda/SES)

Restaurant management 02/2024 – 01/2025
Multi-tenant admin backend for a restaurant management platform; powers management of franchise brands, restaurants, menus, and pricing across concepts.
Kotlin, Java, Spring Boot, REST APIs, PostgreSQL

MyCitroën Connect [🔗](#) 03/2022 – 02/2023
Connected vehicle application for Citroën EV and ICE cars.
Android SDK, iOS SDK, Okhttp, Retrofit, Alamofire, Firebase, APNS, Google Map APIs

TetraVX nVX [🔗](#) 07/2017 – 02/2022
A multi-channel cloud based VoIP client for enterprise customers of TetraVX.
Linphone, Android SDK, iOS SDK, Couchbase Lite, APNS, CallKit, Firebase, Deep Linking, REST APIs, Java, Spring Boot, Elasticsearch

Direct Sports Network [🔗](#) 01/2016 – 06/2017
OTT app for sports content of Ice Hockey, Football, Nascar.
Android Leanback SDK, Amazon Fire TV SDK, REST API, Media Streaming, Custom Ad streaming

Polycab Connect [🔗](#) 01/2017 – 06/2017
Royalty program to reward registered dealers, distributors and retails.
Android, Kotlin, REST API, Push notifications
